

ARANJUEZ 2009-2010

One of the most famous monuments in Aranjuez is the Royal Palace.

Beside the Royal Palace there is a very nice place: San Antonio square.

Here there is a church and a beautiful fountain called “Mariblanca”

There are several beautiful gardens in Aranjuez. This is “Jardín del Parterre”.
The fountains represent famous classical myths.

The main fountain is “La fuente de Hércules”.
At the top of the fountain, we can see Hércules fighting against Anteo, who has to be moved away from the earth because when he is in touch with it, he becomes extremely strong.
At the bottom of the fountain, the twelve Hércules’ works: El León de Nemea, La Cierva de Cirinia, El Toro de Creta, El Jabalí del Erimanto...

Colegio Apóstol Santiago, Aranjuez

And the other one is “La fuente de Ceres”

This is “Jardín de la Isla”

This is “Jardín del Príncipe” where we can visit “Los Chinescos”

And this is our school, the place where we have spent many years and met a lot of friends

Although under a sheet of snow, everything seems different
